SUBJECT INDEX TO VOLUME 15

Acetaminophen-induced hepatotoxicity, failure of exogenous prostoglandin to protect against, in rat, 477
Acetonitrile toxicity, acute, acetone potentiation of, in rats, 609
Aflatoxins, penetration of, through human epidermis, 769
9-aminoacridine, disposition of, 789
Aroclor, genotoxicity and, 245
Aroclor 1254, toxicological manifestations of, 63
Arsenic trioxide, antibacterial defenses and, 163
Asbestos, early response of the visceral pleura following exposure to, 673

Benzo[a] pyrene, elution of, from carbon blacks into biomembranes in vitro, 697
Benzo[a] pyrene diol epoxide, covalent binding of, 255
BHT-induced toxicity, assessment of, 125

Cadmium:
  chronic exposure of, reversibility effects on renal and hepatic gluconeogenic enzymes in rats from, 521
  distribution and movement of, in epithelial cells of rat small intestine, 509
  inhalation, exposure estimates of, 173
  jejunal uptake of, role of iron in, in newborn rat, 687
Carbon monoxide, direct effect of, on hexobarbital metabolism, 847
Carcinogenicity studies, total dose and dose rate in, influence of, 545
Cardiovascular toxicology, potential application of computer-assisted electrocardiographic analysis system to, 713
Chlordecone, immunotoxic potential of, with comparison to cyclophosphamide, 561
Chlordimeform, effect on cardiovascular functional parameters, 729
Chlorine dioxide, thyroid function and, 315
Chromium compounds, DNA synthesis and, 237
Cigarette smoke, alteration of [^{14}C] Arachidonic acid metabolism caused by, in aortas and platelets of selenium and vitamin E-fed rats, 493
Coal fly ash, polycyclic aromatic hydrocarbons of, analysis by gas-liquid chromatography, 333
Cobalt, effect on biliary excretion of bilirubin and glutathione, 813
Coumestrol, changes caused by, 51

Developmental toxicity, nine selected compunds and, 25
Di(2-ethylhexyl)phthalate to monoethylhexyl phthalate, conversion rates of, developmental changes in, in rats, 459
Diethylhydroxylamine, effects of, on hepatic mocrosomal lipid peroxidation and glutathione *S*-transferases, 467
Dimethylnitrosamine, effects of, on nuclear ploidy of neonatal rat livers, 551
1, 3-Diphenylguanidine, dermal absorption and disposition of, in rats, 623
Drugs, potentially hazardous, screening for, 1

Ethoxyquin hydrochloride, preparation and dietary effects of, 663

Fenvalerate, toxicity of, to developing steelhead trout, 445
Formaldehyde, interaction with glutathione, in isolated/ventilated perfused lung and isolated perfused liver, 655
Formamidine pesticide, suppression of antibody response by, 293

Glutathione, interaction of formaldehyde with, in isolated/ventilated perfused lung and isolated perfused liver, 655
Glycolitic enzymes, increase in activities of, produced by nitrogen dioxide, in rat lungs, 323

Hexachlorobenzene, effects of, on cytochrome P-450 and mixed oxidases in Japanese quail, 93
Hexachlorobenzene-induced porphyria in Japanese quail, 431
Hexachlorobiphenyl, toxicological manifestations of, 63
Humic acid, subchronic toxicology of, in rat, 305
Hydroxyl radical (OH•) production, effects of quinone type drugs on, 265

Inhaled aerosols, comparative deposition of, 197
Isobutyl nitrite, subchronic toxicity of:
  systemic toxicity, 823
  immunotoxicity studies, 835

Lung epithelial and interstitial cells, labeling indices of, improved method for calculating, 229

Malathion, pneumotoxic impurity of, development of tolerance to, 279
Methyl bromide, acute toxic effects of, 109
Mirex:
  effects of, on nuclear ploidy of neonatal rat livers, 551
  human body burden of, 385
  uptake and deposition of, 395
Mn_3O_4 exposure, male reproductive system and, in preweanling rat, 339
Monochlorobenzene, acute, subchronic, and chronic oral administration of, toxic responses to, 745

β-Naphthoflavone, effects of, on cytochrome P-450 and mixed oxidases in Japanese quail, 93
Nitroso compounds, DNA-damaging, formation of, 1
NO_2, humoral immunodepression and, 149

Organotin complex, testicular changes in rats after administration of, 503
Ozone inhalation, effect on xenobiotic metabolism of rat lung and liver, 855

Paraquat toxicity and pulmonary alveolar macrophages, 417
Perflouro-n-decanoic acid, thyroid, bradycardic, and hypothermic effects of, in rat, 485
Photochemical reaction products of propylene plus NO_2, genetic effects of, on cultured Chinese hamster cells, 531
Polychlorinated biphenyls, increase in urinary homovanillic acid production caused by, in orally-dosed rats, 575
Propylene hepatotoxicity, mixed-function oxidase system induction and, 39
Pulmonary alveolar macrophages, paraquat toxicity in vitro and, 417
Phenobarbital, effects of, on cytochrome P-450 and mixed oxidases in Japanese quail, 93

Test-animal populations, genetic composition of, influence on chronic toxicity studies, 357
Tetrachloroazoxybenzene, chloracnegenic response and, 215
1,2,3,4-Tetrachlorobenzene, metabolites of, in monkey urine, 603
2,3,7,8,-Tetrachlorodibenzo-p-dioxin, dietary selenium, glutathione peroxidase activity and, 405
Tetrachlorhydroquinone, porphyria and, 81
Tetraphenylphosphonium$^+$, increased accumulation of, by cyclopiazonic acid-treated renal epithelial cells, 779
Toluene diisocyanate, pulmonary performance and, 137
Treated hemofil injection, potential toxic effects on systemic hemodynamics, 801
Trichloroethylene:
  pharmacokinetics, oral and intravenous, in rat, 587
  update of, 369

Urethane, distribution of, binding to DNA, RNA, and protein, in mice, 635

Vaginal cornification, prolonged, in mice, 51
